Sewanu Isaiah

Frontend Developer

EXPERIENCE

Freelance Developer

Aug 2024 - Present

Designed and developed frontend interfaces for clients in e-commerce and entertainment sector

TECHNICAL PROJECTS

E-commerce Product Display Web App

Built a fully responsive product listed page using HTML,CSS and JavaScript. Implemented category filtering and a Wishlist feature to enhance user experience.

Movie Web App

Developed a fully responsive movie web application using React.js fetching data from an external API. Implemented dynamic search and filtering functionalities for enhanced user experience. Utilized react hooks and state management for efficient performance.

NFT Webpage

Developed a visually appealing and responsive NFT webpage using HTML and CSS, showcasing digital collectibles with a modern UI.
